

## Gregorc Thinking Style Delineator

### Directions

**BEFORE STARTING** the word matrix on the next page, carefully read all SEVEN of the following directions and suggestions:

1. **True Self:** You must rank the words on the next page based on who you are as your true self; NOT who you are at school, at home, would *like* to be or *should* be. Reflect on the question: "Who am I?" to answer.
2. **Words:** The words used in the matrix on the next page were developed by a famous philosopher, Anthony Gregorc. The words may seem to be random-that is on purpose. Just react to the words as they are presented.
3. **Rank:** Rank, in order, the ten sets of four words.
  - a. 4 = best and most powerful descriptor of your true self.
  - b. 3 = the next closest to your true self
  - c. 2 = less like your true self
  - d. 1 = least like your true self

Each word in a set must have a ranking of 4,3,2 or 1. **No two words in a set can have the same rank.**

**EXAMPLE:**

3	objective
2	evaluative
4	sensitive
1	infinitive

This is a "set."  
\* Complete each of these  
in order. \*

4. **React:** To rank the words in a set, go with your gut. There are no "right" or "wrong" answers. The real, true you is best revealed through gut reaction, so don't second guess yourself.
5. **Proceed:** Continue to rank all then vertical columns, one set at a time.
6. **Time:** Recommended time to complete the word ranking (page 2) is 3 minutes
7. **Start:** Turn the page and start now :)

objective

evaluative

sensitive
